

SPELLED

Deckbuilding meets wordplay in a game of duelling witches and wizards

Play your letter cards to gain coins, acquire new cards, and find the synergies between your deck and character. Then spell words with those letters to activate even more combos.

When you've "Spelled" a word, use your character's unique powers and the rewards on your player board to unleash your inner magician. Win by destroying your opponent, doubling your own starting health, or by completing three of your Magical Missions.

Components:

- 126 Poker-Size Cards
- 2 dual-sided player boards
- 4 wooden cubes (8mm)
